A

- Abdominal fetal ECG complex, influence of maternal ECG on (van Bommel, Peeters, and Hengeveld), 556
- Aberrations, chromosomal, in 2 embryos from same mother (Shepard et al.), 48
- Abnormal cytology of cervix in pregnancy (Schiffer et al.), 597
- Abortions, midtrimester, anatomic studies in (Wingate), 901 (Comm. in brief)
- spontaneous, early, changes of placenta in (Abaci and Aterman), 252
- Abruptio and premature separation of placenta (Gruenwald, Levin, and Yousem), 604 (Current investigation)
- Accidental injury complicating pregnancy (Buchsbaum), 752 (Current developments)
- Acid-base composition of amniotic fluid and clinical condition of newborn guinea pig, relationship between. I. Influence of maternal carbon dioxide tension (Daniel and Morishima), 578
- status of fetus and clinical condition of newborn following cesarean section (Cosmi and Marx), 378
- deficiency, folic, in pregnancy, remission of (Kitay and Marshall), 297 (Current investigation)
- Acidosis, fetal, correction of, with ephedrine during spinal hypotension (Snider et al.), 911
- Activity, contractile, of three separate layers of human uterus, action of epinephrine and norepinephrine on (Pinto et al.), 333
- Adrenergic blocking agents and catecholamines, effects of, in human pregnancy (Barden and Stander), 226
- Age, maternal, effect of, on reproductive capacity (Talbert), 451 (Current developments)
- Agenesis, gonadal, D trisomy and, cyclopia in association with (Toews and Jones), 53
- Altitude, high, pregnancy at, low estrogen excretion during (Sobrevilla et al.), 828
- pregnancy at (Blechner et al.), 794

C

- Canaliculi of corpus luteum (Green, Garcilazo, and Maqueo), 57
- Carbohydrate histochemistry, enzyme and, effects of sequential oral contraceptive on (Hester et al.), 771
- Carbon dioxide, oxygen and, transplacental pressure differences of (Blechner et al.), 794
- tension, maternal, influence of, on acid-base composition of amniotic fluid and clinical condition of newborn guinea pig (Daniel and Morishima), 578
- tetrachloride, hepatotoxic effect of, during pregnancy (Douglas and Clower), 236
- Carcinoma (see also under specific organ)
- of cervix, epidermoid, histogenesis of, glucose-6-phosphate dehydrogenase and (Park and Jones), 106 (Current investigation)
- recurrent, management of (Keettel, Van Voorhis, and Latourette), 671
- endometrial, cytogenetic studies of (Stanley and Kirkland), 1070
- hypothalamopituitary hyperactivity and (Dilman et al.), 880
- invasive (Geisler and Gibbs), 516
- in situ of cervix in Connecticut (Hulme and Eisenberg), 415
- mixed, of endometrium (Ng), 506
- of vulva, intraepithelial, treatment of, by skin excision and graft (Rutledge and Sinclair), 806
- Catecholamines, adrenergic blocking agents and, effects of, in human pregnancy (Barden and Stander), 226
- Catheterization of ureters, intrauterine, of primate fetus (Suzuki and Plentl), 976
- Cations of normal term placentas, nine, seasonal variations in, study of (Dawson et al.), 354
- Cell, amnion, human, vacuolation in, studied by time-lapse photography and electron microscopy (Armstrong, Wilt, and Pritchard), 932
- endometrial, ciliated (Fleming, Tweeddale, and Roddick), 186
- enzymatically active, in stroma of ovarian tumors, incidence and histochemical investigation of (Pfleiderer and Teufel), 997
- Langhans, in cervix, electron microscope observations on (Younes, Robertson, and Bencosme), 397
- tissue culture, papillary serous cystadenocarcinoma, antigenicity of (Levi, Parshley, and Mandl), 433 (Current investigation)
- Cephalic metabolism, fetal, in sheep (Quilligan et al.), 716
- Cervical dysplasia, experimental, in rhesus monkey (Kaminetzky and Swerdlow), 404
- mucus, effect of norethindrone-mestranol on (Bowman), 1039
- neoplasia, diagnosis of, value of assay of chromosomes in (Jones et al.), 624
- Cervicitis, chronic, treatment of, by cryotherapy (Ostergard, Townsend, and Hirose), 426
- Cervix, carcinoma of, epidermoid, histogenesis of, glucose-6-phosphate dehydrogenase and (Park and Jones), 106 (Current investigation)
- in situ of, in Connecticut (Hulme and Eisenberg), 415
- recurrent, management of (Keettel, Van Voorhis, and Latourette), 671
- Langhans cells in, electron microscope observations on (Younes, Robertson, and Bencosme), 397
- in pregnancy, abnormal cytology of (Schiffer et al.), 597
- uterine, during administration of ethynodiol diacetate and mestranol, colposcopic study of (Carbia, Alvarado-Duran, and Lopez-Llera), 1023
- squirrel monkey, glycogen and glycogen-metabolizing enzymes in (Graham), 989
- Cesarean section, clinical condition of newborn following, acid-base status of fetus and (Cosmi and Marx), 378
- Chamber, diffusion, for exposing spermatozoa to human uterine secretions (Edwards et al.), 388
- Changing aspects of specialization (Morton), 619
- Chemotherapy, operation, external irradiation, radioactive isotopes, and, in treatment of metastatic ovarian malignancies (VillaSanta and Bloedorn), 531
- Chlormadinone acetate, low-dose, for contraception, endometrium from women treated with, in vitro autoradiographic study of (Márquez-Monter et al.), 896
- ovulation in women treated with low doses of, presence of corpus luteum as evidence of (Gutiérrez-Nájjar et al.), 1018
- Chromatin pattern, sex, in hydatidiform mole (Baggish et al.), 362
- Chromosome aberrations in 2 embryos from same mother (Shepard et al.), 48
- assay of, in diagnosis of cervical neoplasia, value of (Jones et al.), 624
- X (46,XXq⁻), with deletion of long arm of, primary amenorrhea, two cases of (Baughman et al.), 1065
- Chronic cervicitis, treatment of, by cryotherapy (Ostergard, Townsend, and Hirose), 426
- Ciliated endometrial cells (Fleming, Tweeddale, and Roddick), 186
- Circuit, extracorporeal, maintenance of sheep fetuses by, for periods up to 24 hours (Alexander, Britton, and Nixon), 969
- Circummarginate placentas, circumvallate and (Wentworth), 44
- Circumvallate and circummarginate placentas (Wentworth), 44
- Clearance of inert molecules, Na, and Cl ions across primate placenta (Battaglia et al.), 1135
- test, amniotic fluid PAH (Edelberg et al.), 585
- Cl ions, inert molecules, Na, and, clearance of, across primate placenta (Battaglia et al.), 1135
- Clinical condition of newborn following cesarean section, acid-base status of fetus and (Cosmi and Marx), 378
- guinea pig, relationship between acid-base composition of amniotic fluid and (Daniel and Morishima), 578
- use of Rh hapten, results of (Carter), 447 (Pertinent comments)
- Clomiphene-induced ovulatory cycles, plasma gonadotropins during (Jacobson et al.), 284 (Current investigation)
- Communications in brief, 304-312, 611-614, 901-906, 1173-1177
- Complex, ECG, abdominal fetal, influence of maternal ECG on (van Bommel, Peeters, and Hengeveld), 556
- Compression, aortocaval, by uterus in late pregnancy (Bieniarz et al.), 1106
- Computer processing, LINC, quantification of fetal electrocardiogram through (Behrer et al.), 537
- Connective tissue disorders in obstetrics and gynecology (Stoddard and Myers), 240
- Consumption, oxygen, of human uterine strips (Caton, Difazio, and Munson), 1085
- Contraception, postcoital, by topical application of some steroidal and nonsteroidal agents (Kar, Setty, and Kamboj), 306 (Comm. in brief)
- Contraceptive device, intrauterine, new form of (Osler and Lebeck), 1173 (Comm. in brief)
- oral, effect of, on glucose metabolism (Taylor and Kau), 1035
- low-dose chlormadinone acetate for, endometrium from women treated with, in vitro study of (Márquez-Monter et al.), 896
- psychiatric reactions to (Kane), 1053 (Current developments)

- Contraceptive, oral—Cont'd
 sequential, effects of, on endometrial enzyme and carbohydrate histochemistry (Hester et al.), 771
 two thousand woman-years' experience with (Karrer and Smith), 1029
- Contractile activity of three separate layers of human uterus, action of epinephrine and norepinephrine on (Pinto et al.), 333
- Convulsion, grand mal, oxytocin-induced water intoxication with (Leventhal and Reid), 310 (Comm. in brief)
- Coordination of Federal programs and research (Silver), 1048 (Pertinent comments)
- Cord, umbilical, hematoma of (Lupovitch and McInerney), 902 (Comm. in brief)
 simple improved method for ligating (Winter and Berger), 1176 (Comm. in brief)
- Corpus luteum, canaliculi of (Green, Garcilazo, and Maqueo), 57
 human, at term, histochemical study of (Guraya), 219
 presence of, as evidence of ovulation in women treated with low doses of chlormadinone acetate (Gutiérrez-Nájjar et al.), 1018
 uteri, hemangiomatosis of (Goldman), 309 (Comm. in brief)
- Correspondence, 1178-1181
- Cotyledon, fetal, functional anatomy of, multiple simultaneous intervillous space pressures recorded in several regions of hemochorial placenta in relation to (Reynolds et al.), 1128
- Cryotherapy, treatment of chronic cervicitis by (Ostergard, Townsend, and Hirose), 426
- Culture cells, tissue, papillary serous cystadenocarcinoma, antigenicity of (Levi, Parshley, and Mandl), 433 (Current investigation)
- Current developments, 135-175, 451-477, 752-769, 1053-1063
 Current investigation, 106-124, 284-303, 433-446, 604-610, 736-748, 1041-1047
- Cycle, estrous, effect of stage of, on motility of uterus in guinea pig in vivo (Feit, Freund, and Ventura), 202
 ovulatory, clomiphene-induced, plasma gonadotropins during (Jacobson et al.), 284 (Current investigation)
- Cyclopia in association with D trisomy and gonadal agenesis (Toews and Jones), 53
- Cystadenocarcinoma, papillary serous, tissue culture cells, antigenicity of (Levi, Parshley, and Mandl), 433 (Current investigation)
- Cysts of uterus, serosal (subperitoneal) (Neri et al.), 612 (Comm. in brief)
- Cytogenetic studies of endometrial carcinoma (Stanley and Kirkland), 1070
- Cytologic examination of amniotic fluid, estimation of fetal maturity by (Bishop and Corson), 654
 in pregnancy (Votta et al.), 571
- Cytology, abnormal, of cervix in pregnancy (Schiffer et al.), 597
 oral and vaginal, comparison of, in response to stilbestrol (Anderson and Belding), 78
- Cytomorphology of epithelial cells of Fallopian tubes obtained by aspiration from operative specimens (Dudkiewicz), 82

D

- Death, intrauterine, detection of (Brown), 965
- Deletion of long arm of X chromosome (46,XXq-), primary amenorrhea with, two cases of (Baughman et al.), 1065
- Delivery, labor and, transvaginal regional anesthesia for (Chehab), 920
- Desquamative inflammatory vaginitis—newly defined entity (Gardner), 1102
- Detection of intrauterine death (Brown), 965
- Diagnostic aid in obstetrics, Doppler shift principle as, evaluation of (Barton), 563

- Diazepam for eclampsia (Gorbach), 611 (Comm. in brief)
- Diazoxide, relaxant effect of, on nongravid human myometrium in vivo (Landesman et al.), 1080
- Dicloxacillin, placental transfer of, at term (MacAulay, Berg, and Charles), 1162
- Diet-induced atrial thrombosis in mice, effect of estrogen, reserpine, and pregnancy on development of (Clower and Douglas), 928
- Diffusion chamber for exposing spermatozoa to human uterine secretions (Edwards et al.), 388
- Digital signal enhancement of fetal electrocardiogram (Rhyne), 549
- Doppler shift principle as diagnostic aid in obstetrics, evaluation of (Barton), 563
 technique, ultrasonic, fetal heart studies with (Bernstine), 961
- Doses of menopausal gonadotropins, single and multiple, effects of, upon ovarian function (Taymor, Yussman, and Lorenzo), 784
- D trisomy and gonadal agenesis, cyclopia in association with (Toews and Jones), 53
- Dysplasia, cervical, experimental, in rhesus monkey (Kaminetzky and Swerdlow), 404

E

- Eclampsia, diazepam for (Gorbach), 611 (Comm. in brief)
- Electrocardiogram (ECG) complex, abdominal fetal, influence of maternal ECG on (van Bemmel, Peeters, and Hengeveld), 556
 fetal, digital signal enhancement in (Rhyne), 549
 quantification of, through LINC computer processing (Behrer et al.), 537
 maternal, influence of, on abdominal fetal ECG complex (van Bemmel, Peeters, and Hengeveld), 556
- Electron microscope observations on Langhans cells in cervix (Younes, Robertson, and Bencome), 397
 study of effects of tissue culture cells on human endometrium (Luginbuhl), 192
 time-lapse photography and, vacuolation of human amnion cell studied by (Armstrong, Wilt, and Pritchard), 932
- Embryos, chromosomal aberrations in 2, from same mother (Shepard et al.), 48
 placenta and, in early spontaneous abortion, changes of (Abaci and Aterman), 252
- Endometrial carcinoma, cytogenetic studies of (Stanley and Kirkland), 1070
 hypothalamic-pituitary hyperactivity and (Dilman et al.), 880
 cells, ciliated (Fleming, Tweeddale, and Roddick), 186
 enzyme and carbohydrate histochemistry, effects of sequential oral contraceptive on (Hester et al.), 771
 stroma cell, human, ultrastructure of, during menstrual cycle (Wienke et al.), 63
 and vaginal enzymatic activities in mice, effects of norethynodrel and mestranol on (Chang and Russfield), 736 (Current investigation)
- Endometrium, carcinoma of, mixed (Ng), 506
 human, electron microscopic study of, effects of tissue culture on (Luginbuhl), 192
 invasive carcinoma of (Geisler and Gibbs), 516
 normal and hyperplastic, arteriole alteration in (Salvatore), 493
 from women treated with low-dose chlormadinone acetate for contraception, in vitro autoradiographic study of (Márquez-Monter et al.), 896
- Endotoxin type, septic shock of (Cavanagh, Clark, and McLeod), 13
- Enzymatic activities, endometrial and vaginal, in mice, effects of norethynodrel and mestranol on (Chang and Russfield), 736 (Current investigation)
- Enzymatically active cells in stroma of ovarian tumors, incidence and histochemical investigation (Pfleidner and Teufel), 997

- Enzyme and carbohydrate histochemistry, endometrial, effects of sequential oral contraceptive on (Hester et al.), 771
- glycogen-metabolizing, glycogen and, in squirrel monkey uterine cervix (Graham), 989
- histochemical methods, histochemical and, ovarian tumors investigated by (Koudstaal, Bossenbroek, and Hardonk), 1004
- Enzymology, vaginal fluid (Gibbs, Labrum, and Stagg), 982
- Ephedrine, correction of fetal acidosis with, during spinal hypotension (Snider et al.), 911
- Epidermoid carcinoma of cervix, glucose-6-phosphate dehydrogenase and histogenesis of (Park and Jones), 106 (Current investigation)
- Epinephrine and norepinephrine, action of, on contractile activity of three separate layers of human uterus (Pinto et al.), 333
- Epithelial cells of Fallopian tubes obtained by aspiration from operative specimens, cytomorphology of (Dudkiewicz), 82
- Erythroblastosis fetalis, amniography for clinical evaluation of (Queenan, von Gal, and Kubarych), 264
- Estriol, estrogenic potential of (Haskins, Moszkowski, and Whitelock), 665
- excretion, urinary, in pregnancy anemias (Beischer et al.), 819
- and pregnanediol, excretion of, in Chinese women during pregnancy (Wei et al.), 8
- Estrogen estimations, urinary, spectrophotometry, and intra-uterine transfusion in severe Rh isoimmunization (Bjerre et al.), 275
- excretion, low, during pregnancy at high altitude (Sobrevilla et al.), 828
- maternal, effect of intrauterine transfusion on (Dickey, Besch, and Ullery), 222
- urinary, in undernourished pregnant Indian women (Iyengar), 834
- formation in vitro by fetoplacental tissues of midpregnancy (Wu, Touchstone, and Flickinger), 862
- reserpine, and pregnancy, effect of, on development of diet-induced atrial thrombosis in mice (Clower and Douglas), 928

- Thrombosis, arterial, diet-induced, in mice, effect of estrogen, reserpine, and pregnancy on development of (Clower and Douglas), 928

- Thyroid function in human pregnancy. IV. Serum butanol-extractable iodine drop with weight gain (Man, Reid, and Jones), 244
- Time-lapse photography and electron microscopy, vacuolation in human amnion cell studied by (Armstrong, Wilt, and Pritchard), 932
- Tissue culture cells, papillary serous cystadenocarcinoma, antigenicity of (Levi, Parshley, and Mandl), 433 (Current investigation)
- electron microscopic study of effects of, on human endometrium (Luginbuhl), 192
- disorders, connective, in obstetrics and gynecology (Stoddard and Myers), 240
- fetoplacental, of midpregnancy, estrogen formation in vitro by (Wu, Touchstone, and Flickinger), 862
- placental, antigenicity of (Koren, Abrams, and Behrman), 340
- Toxemia, acute, placenta in (Salvatore), 347
- Tract, female genital, Herpes simplex infection of (Kleger et al.), 745 (Current investigation)
- Transactions of ninety-first annual meeting of American Gynecological Society, 619-735, 771-818
- Transfer of orotic acid, uridine, and UMP, placental (Hayashi, Shin, and Wiand), 1144
- placental, of chelated iron in guinea pig (Bagley et al.), 291 (Current investigation)
- of dicloxacillin at term (MacAulay, Berg, and Charles), 1162
- of iron in rabbit, role of transferrin in (Douglas, Renton, and Wright), 1169
- Transferrin, role of, in placental transfer of iron in rabbit (Douglas, Renton, and Wright), 1169
- Transfusion, intrauterine, effect of, on maternal estrogen excretion (Dickey, Besch, and Ullery), 222
- Transplacental hemorrhage in postterm pregnancies (Pollack and Montague), 383
- passage of nucleotides, nucleosides, and bases (Hayashi and Garvey), 1154
- pressure differences of oxygen and carbon dioxide (Blechner et al.), 794
- Transvaginal regional anesthesia for labor and delivery (Chehab), 920
- Trophoblastic tumors, molar pregnancies and, serum placental lactogen levels in patients with (Saxena et al.), 115 (Current investigation)
- Tubal activity in vivo, human, new technique for recording (Maia and Coutinho), 1043 (Current investigation)
- Tumors, ovarian, investigated by histochemical and enzyme histochemical methods (Koudstaal, Bossenbroek, and Hardonk), 1004
- stroma of, enzymatically active cells in, incidence and histochemical investigation of (Pfleiderer and Teufel), 997
- trophoblastic, molar pregnancies and, serum placental lactogen levels in patients with (Saxena et al.), 115 (Current investigation)

U

- Ultrasonic Doppler technique, fetal heart studies with (Bernstine), 961
- Ultrasonics in demonstration of fetal heart movements (Bang and Holm), 956
- Ultrastructure of feline placental membrane (Wynn and Björkman), 34
- of human endometrial stroma cell during menstrual cycle (Wienke et al.), 65
- ovary. III. Canaliculi of corpus luteum (Green, Garcilazo, and Maqueo), 57

- Umbilical cord, hematoma of (Lupovitch and McInerney), 902 (Comm. in brief)
- simple improved method of ligating (Winter and Berger), 1176 (Comm. in brief)
- vein, dissecting aneurysm of (Lupovitch and McInerney), 902 (Comm. in brief)
- UMP, orotic acid, uridine, and, placental transfer of (Hayashi, Shin, and Wiand), 1144
- Ureters, catheterization of, intrauterine, of primate fetus (Suzuki and Plentl), 976
- Uridine, orotic acid, and UMP, placental transfer of (Hayashi, Shin, and Wiand), 1144
- Urinary estriol excretion in pregnancy anemias (Beischer et al.), 819
- estrogen estimations, amniotic fluid spectrophotometry, and intrauterine transfusion in severe Rh isoimmunization (Bjerre et al.), 275
- excretion in undernourished pregnant Indian women (Iyengar), 834
- excretion of FSH and LH, effect of mestranol and chloramidine acetate on (Stevens, Goldzieher, and Vorys), 95
- steroid profile as index of fetal well-being (Acevedo et al.), 867
- Urine, plasma and, free 11-hydroxycorticoids in, in pregnancy and in cases of stress (Gottfried, Lewenthal, and Goldberg), 924
- Uterine anastomosis, effect of, on action of IUCD in rats (Wood and Kirby), 1041 (Current investigation)
- artery pressure, unreliability of sphygmomanometric method for estimating (Bieniarz et al.), 1106
- cervix during administration of ethynodiol diacetate and mestranol, colposcopic study of (Carbia, Alvarado-Duran, and Lopez-Llera), 1023
- squirrel monkey, glycogen and glycogen-metabolizing enzymes in (Graham), 989
- phlebography (Murray and Comparato), 1088
- secretions, human, diffusion chamber for exposing spermatozoa to (Edwards et al.), 388
- strips, human, oxygen consumption of (Caton, DiFazio, and Munson), 1085
- Uterus, human, contractile activity of three serarate layers of, action of epinephrine and norepinephrine on (Pinto et al.), 333
- nongravid, effect of oxytocin and 2-methanesulfonamido derivatives of isoxsuprine on (Landesman, Coutinho, and Wilson), 212
- in late pregnancy, aortocaval compression by (Bieniarz et al.), 1106
- midpregnant human, effect of prostaglandin E₁ on (Wiqvist et al.), 327
- monkey, identification and localization of lipofuscin in (Graham), 490
- motility of, in guinea pig in vivo, effect of stage of estrous cycle on (Feit, Freund, and Ventura), 202
- nonpregnant, response of, to vasopressin as index of ovarian function (Coutinho and Vieira Lopez), 479
- pregnant human, effect of prostaglandin E₁ and E₂ on motility pattern of (Bygdeman et al.), 317
- serosal (subperitoneal) cysts of (Neri et al.), 612 (Comm. in brief)

V

- Vacuolation in human amnion cell studied by time-lapse photography and electron microscopy (Armstrong, Wilt, and Pritchard), 932
- Vagina, normal human, migration of lymphocytes in (Roig de Vargas-Linares and Burgos), 1094
- Vaginal cytology, oral and, comparison of, in response to stilbestrol (Anderson and Belding), 78

Vaginal—Cont'd

- enzymatic activities, endometrial and, in mice, effects of norethynodrel and mestranol on (Chang and Russfield), 736 (Current investigation)
- fluid enzymology (Gibbs, Labrum, and Stagg), 982
- Vaginitis, desquamative inflammatory (Gardner), 1102
- Variations, seasonal, in nine cations of normal term placentas, study of (Dawson et al.), 354
- Vasopressin, response of nonpregnant uterus to, as index of ovarian function (Coutinho and Vieira Lopez), 479
- Vasopressors in obstetrics. I. Correction of fetal acidosis with ephedrine during spinal hypotension (Snider et al.), 911

- Vomiting, nausea and, in pregnancy (Fairweather), 135 (Current developments)

- Vulva, intraepithelial carcinoma of, treatment of, by skin excision and graft (Rutledge and Sinclair), 806

W

- Water intoxication, oxytocin-induced, with grand mal convulsion (Leventhal and Reid), 310 (Comm. in brief)

X

- X chromosome (46,XXq⁻), deletion of long arm of, primary amenorrhea with, two cases of (Baughman et al.), 1065
